EVERGREEN LOCAL SCHOOL DISTRICT

EHS LOCKER ROOM RENOVATIONS & EXPANSION

This spring, the boys and girls high school locker rooms are scheduled for renovations and expansion. As part of this project, the weight room will also undergo expansion to accommodate more room for cardio and weight equipment as well as an area for training and rehabilitating injured athletes. In addition, there will be areas built for increased equipment storage and an extra classroom for physical education/health classes, which can double as a team meeting room. The updated facilities will also allow Evergreen the ability to host tournaments. The contract with Beilharz Architects Inc. will be finalized at the March 9, 2020 Board of Education meeting. Plans include breaking ground this spring, continuing through summer, and reaching completion by 2021. An architectural rendering is attached to this article to help readers visualize the new updates. This project will be school funded and aided by the Evergreen Athletic Boosters who have agreed to help purchase additional equipment for the weight room. “We are looking forward to providing updated matching facilities for both male and female athletes,” says Eric Smola, superintendent. “We now offer 18 different sport options for our high school students as well as regular physical education classes; having the proper facilities, equipment, and space to accommodate all the needs of the Viking athletic and physical education programs will be a welcomed addition,” he added.

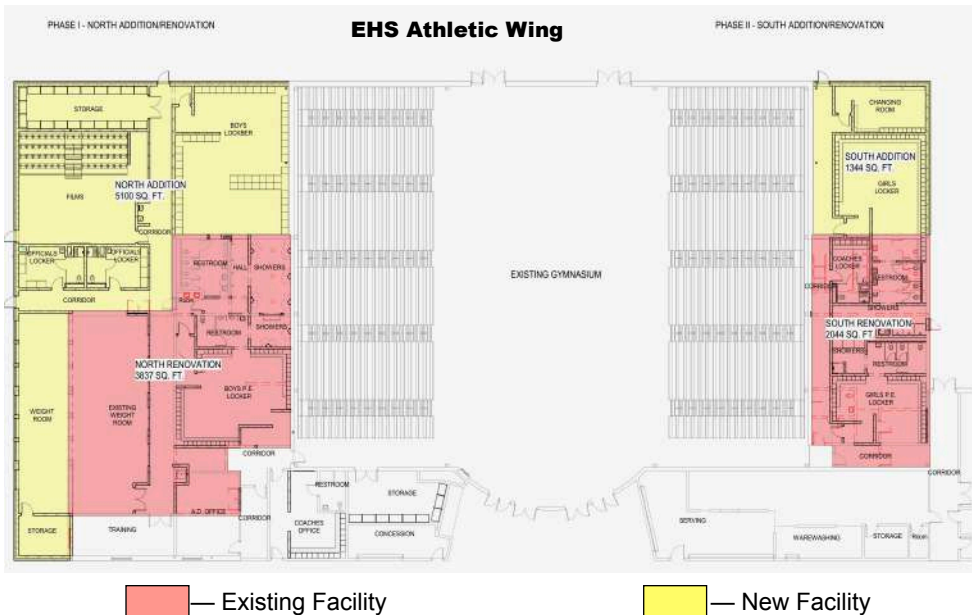

FROM THE SUPERINTENDENT

By Eric J. Smola, Superintendent

This is an exciting time at Evergreen as the District continues to move forward with the “Green Movement” in

energy conservation. By the end of 2020, all of the lighting in District buildings, classrooms, hallways, and parking lots will be converted to LED. The project has been separated into four different phases to make it more manageable. The elementary building is currently undergoing the first phase conducted by Creighton Electric, located in Archbold. According to Kevin Stamm, KLS Energy Group, the Evergreen District currently uses 110,200kwh on a monthly basis for lighting. With the LED conversion, the usage will drop to 56,077kwh. This means the District will reduce its utility bill by 51%, thus saving an average of \$72,000.00 annually. In addition, a rebate from First Energy is helping to pay for this conversion, and Evergreen is expected to see a return on investment within two years. Cost savings and conservation — how exciting!

THANK YOU FIRST RESPONDERS!

At 3:00 am on February 23, a small fire occurred in the EHS maintenance area due to combustible oily rags. Within minutes, fire fighters from Metamora Amboy Volunteer Fire Department and Lyons Royalton Fire Department arrived and extinguished the flames. Thankfully it was a small contained fire, no major damage was done, and no one was hurt. A special thank you to everyone who helped!

IT'S TIME FOR THE 2020 CENSUS

Did you know? A kindergartner counted in the 2020 Census this spring will be starting high school when the next census comes around in 2030; that's 10 years of school funding, supplies, teachers, school lunches, and so much more.

The 2020 Census is a count of every person who lives in the United States and its territories. Responding to the census will help the Evergreen community get its fair share of funding. Census data guides how more than \$675 billion in federal funding is distributed to states and communities each year for schools, health care facilities, roads, transportation, social services, and more. Starting in March, the census can be completed online, by phone, or by mail. Evergreen Local Schools encourages every member of its community to be counted to help ensure the District's children have a bright future. For more information, go to 2020census.gov.
